In a discretionary trust, the trustee is able to exercise discretion as to who is or are the beneficiaries to be beneficial and what proportions of the trust fund or trust income they are to receive.

General Comments

Most businesses which use a Discretionary Trust is either after asset protection and require the flexibility of distributing to various different entities to minimise their income and capital gains tax. Typically when the threshold of all beneficiaries are utilised fully the larger businesses typically run through a Company structure to take advantage of the Company's flat rate of tax.

We usually accumulate assets in a Discretionary Trust and we keep the assets separate from the Trading Company that deals with the clients or customers.
